

In his book, "What Works in Schools", **Dr. Robert Marzano** said, "Success in the classroom will occur when one area is mastered. That area is classroom management." His research shows classroom management can make a huge difference on students' achievement gains-maybe as much as 20 percentile points. **Dr. Marzano's** research also proves effective teachers should possess a set of skills necessary to meet diverse student needs.

Leave our training equipped with easy-to-implement classroom management strategies that will raise your students' scores.

Leave our training with easy-to-implement strategies to get rid of 90% of those pesky, low-level behaviors that take away from your instruction time.

"Classroom Management Strategies That Work".

Our training provides teachers and administrators with a wide variety of strategies and techniques that develop a model of direct instruction for procedures and expected behaviors. Teachers gain skills to keep students orderly, focused, attentive, on-task, and academically productive. Time To Teach Core Component Strategies:

- Self-Control-Student Mood Awareness & Rapid Teacher Response (SMARTR)
- "Teach To's"-Teaching to Classroom Rules and Expectations
- Refocus-Eliminating Multiple Warnings and Repeated Requests
- Student and Teacher Relationships. "Unconditional Positive Regard"
- Classroom Environment As An Asset to Student Learning and Behavior
